2027 Blue Cross and Blue Shield Service Benefit Plan
FEP Blue Standard and FEP Blue Basic
Section 5(f)(a). FEP Medicare Prescription Drug Program

PDP EGWP Catastrophic Maximums

Each individual enrolled in the FEP Medicare Prescription Drug Program has a separate and lower out-of-pocket catastrophic protection maximum for the drugs purchased while covered under this Program.

Under Standard Option, this separate catastrophic maximum is $2,400 true out-of-pocket cost (TrOOP)

Under Basic Option, this separate catastrophic maximum is $2,400 true out-of-pocket cost (TrOOP)

This amount accumulates toward the out-of-pocket catastrophic protection maximums described in Section 4.
